LESSON 10

HOLIDAYS, ONLINE BOOKING AND AIR TRAVEL

1.Types of holidays

2.Online booking

3.Air travel

1.Types of holidays

- a cruise: a holiday where you sleep on a boat and travel from one place to another
- beach holiday: a holiday where you stay near the sea
- skiing holiday: a winter holiday in the mountains
- family holiday: a holiday where there are activities for children as well as adults
- city break: a short holiday where you visit a city
- adventure holiday: an unusual, exciting holiday, possibly with some danger

Places to visit

places of worship	**funfair**	**nature**	**historical buildings**
abbey cathedral chapel temple mosque	roller-coaster merry-go-round carousel dodgem thrill ride	peninsula coastline seashore island waterfall	fortress castle mansion stately home palace

2.Online booking

Nowadays many people book their **accommodation** on the Internet. First, you need to search for your **destination** on the days you plan to travel. There is a wide range of **hotels**, **motels**, **B&Bs** (bed and breakfast), but you can also **book an apartment** on **Airbnb**. You should always read the online **reviews** before you book your accommodation. However, the easiest option is to choose a **package holiday**, which includes the flight, hotel room and sometimes meals.

accommodation = a place where you stay

destination = a place where you plan to travel

B&Bs = bed and breakfast; a small hotel where breakfast is included in the price

to book = to make a reservation

reviews = description of a hotel, restaurant, etc., written by people who've been there

package holiday = a holiday organized by a travel company for which you pay a fixed price that includes the cost of the hotel and travel, and sometimes food

3.Air travel

For some people, flying is a chance to relax and escape the hustle and bustle of everyday life. When you're up in the air, it's easy to forget about your troubles. You can watch movies, listen to music, or sleep. It is also the fastest mode of transportation, so if you need to get somewhere fast, that is the best option.

Nevertheless, there can be many things that irritate people when flying. Think about your experience. Which are the ones that bothered you the most?

- not enough leg room
- lost or delayed luggage
- long queues at check-in
- poor quality food and drink
- no baggage trolleys available
- overbooking of seats
- flight delays and cancellations
- tiredness and jet lag
- delays for security checks
- oversized hand luggage in the cabin

Departure

When you arrive at an airport, the **departures board** will show you the **flight numbers**, departure times, and **destinations**. At the check-in desk, someone will check your ticket and **weigh** your luggage. If it is too heavy, you will have to **pay excess baggage**. You can take your hand luggage with you on the **aircraft**. You also get your **boarding card** and then you can go through **passport control**, where someone **checks your passport**, and into the departure lounge, where you can buy things in the **duty-free** shop. Shortly before **take-off**, you go to the place where you get on the plane (**Gate**). When you **board the plane**, you can put your hand luggage in an **overhead locker**. Then you have to **fasten your seat belt**. If there are no **delays**, the plane moves slowly to the **runway**, then it takes off.

departure = when you leave a place, at the start of a journey

destination = where the flights are going to

weigh = see how heavy something is

pay excess baggage = pay extra for your luggage

aircraft = plane

boarding card = piece of paper you must show to get on the plane

check your passport = look at your passport carefully

take-off = when the plane takes off/leaves the ground

to board the plane = get on the plane

delays = when you wait longer than expected

runway = the large road that planes use for take-offs and **landings**

Arrival

When the plane **lands**, there is always an **announcement** from a member of the **cabin crew** telling passengers to wait until the plane completely stops before they stand up. Then you get off the plane and walk through the **terminal building** to passport control. When you've got your luggage from **baggage reclaim**, you **go through customs** and leave the airport.

arrival = when someone or something arrives

lands = arrives on the ground

announcement = spoken information to a group of people

cabin crew = the people on the aircraft who look after the passengers

terminal building = airport building

baggage reclaim = the place where you collect your luggage

go through customs = go through the area where your luggage may be checked to make sure you don't have anything illegal
