The Best (and Easiest) Home-Made Bread! – Audioscript 1

Who doesn't like bread? Its smell and taste, in quite a lot of variations, is extremely popular all over the world, from England to New Zealand… But is it possible to make delicious, soft or crispy bread at home? Of course it is, and I'm here today to show you how, with an easy recipe. Surprisingly, you will need very few, simple ingredients!

To make one loaf of bread.

Ingredients:

7 g fast-action yeast (that is 1 sachet)

2 tablespoons salt

3 tablespoons olive oil

500 g white bread flour, plus some extra flour for sprinkling

300 ml water

Process:

1. Mix the flour, yeast and salt in a bowl.
2. Make a well in the centre of the mixture, add the water and the oil. Mix well, until the dough reaches the proper texture.
3. Put the mixture onto a floured surface and knead for 12 minutes, or until the dough is smooth.
4. Place the dough in an oiled bowl, cover with cling film, and leave to rise for an hour, or until it has grown twice in size.
5. Firmly knead the dough again to remove any air and place it on baking parchment for an hour, or until it has grown twice in size.
6. Heat oven to 220C°.
7. Sprinkle some extra flour onto the loaf and cut a cross on the top of it.
8. Bake for 30 minutes, or until golden brown, and… enjoy!

This is a fast and easy recipe to make white bread at home. You can make several variations using different ingredients. For instance, you may use whole-grain flour instead of white bread flour. For a delicious alternative, mix honey, butter and water in a saucepan, heat the mixture and let it cool. Then add it to the dough mixture. Other ingredients that you can use to make some very good bread, are hazelnuts or ginger.
